SUBJECT INDEX TO VOLUME 32

A

- AAPCC. *See* American Association of Poison Control Centers
- Acetaminophen  
     delayed toxic level of after initial four-hour nontoxic level, 431-434  
     ingestion of in childhood, cost and relative risk of alternative referral strategies for, 513-525  
     prediction of concentrations of in overdose patients using a Bayesian pharmacokinetic model, 17-30
- Acetic acid, intoxication by rectal administration of, 333-336
- Acid-base abnormalities, associated with cocaine toxicity in emergency department patients, 31-39
- Acidosis, metabolic, ibuprofen overdose complicated by, 315-320
- Activated charcoal  
     as interrupter of enteroenteric circulation of phenobarbital, 419-424  
     *in vitro* adsorption of dichlorvos and parathion by, 157-163
- Adenosine receptors, noninvolvement of in theophylline-induced seizures, 257-265
- Alcohol-drug interactions, mechanisms of, 631-681
- Amatoxin, poisoning with mushrooms containing in suburban New York, 715-721
- American Association of Poison Control Centers (AAPCC), validity of database of  
     (letter to the editor), 99  
     (reply to letter to the editor), 101, 103-104
- American Board of Applied Toxicology (announcements), 339-340, 345
- 4-Aminopyridine, characterization of in overdose, 583-587
- Amphetamine, hepatocellular damage

- following intoxication with, 435-444
- Anaphylactic shock, fatal, from hyoscine and diphenhydramine (letter to the editor), 593-594
- Antibody treatment, recent advances in for toxin poisoning, 363-375
- Anticholinergics, intoxication by from ingestion of commercially available thorn apple tea, 589-592
- Anticoagulant, warfarin like, cutaneous exposure to as a cause of an intracerebral hemorrhage, 69-73
- Antidepressant, tricyclic, acute chemical pancreatitis associated with overdose of, 425-429
- Antivenom, *Centruroides sculpturatus*, response to in 151 cases of scorpion stings, 165-171
- Arsenic, in the environment (book review), 595-596
- Artificial fingernail remover, nitroethane poisoning by, 321-324
- Asthma, the toxic induction of, 487-501
- Atropinization, adequate, peripheral vascular resistance as a measure of in organophosphate poisoning, 61-68

B

- Baclofen, supraventricular tachyarrhythmia associated with overdose of, 291-297
- Bayesian pharmacokinetic model for prediction of acetaminophen concentrations in overdose patients, 17-30
- Benzoyllecgonine, the *in vitro* differential binding of to pigmented human hair samples, 405-410
- Blindness, relation of to chronic cyanide poisoning, 549-556
- Blood rheology, the effects of opiates on, 411-417

- Brown recluse spider, hemolytic anemia following a presumptive bite by, 451-456
- Burns, hydrofluoric acid, evaluation of intravenous magnesium sulfate for treatment of, 123-136
- Butorphanol, parenteral exposure to, 465-469

## C

- Carbon monoxide, pathophysiology and treatment of poisoning by, 613-629
- Carcinogenesis (book review), 337-338
- Caustic, epidemiology and prevention of ingestion of in adults, 557-568
- Centruroides sculpturatus*, response to specific antivenom of in 151 cases of scorpion stings, 165-171
- Chelation therapy, with DMSA, disappearance of heme metabolites following, 267-276
- Chemical nominations, requests for (announcement), 355
- Chest pain, associated with cocaine, clinical safety and efficacy of the use of nitroglycerin in the treatment of, 243-256
- Chlorine gas, nebulized sodium bicarbonate in treatment of, 233-241
- Cholinesterase, activity of in pregnant women and newborns, 683-696
- Clomipramine, acute chemical pancreatitis associated with overdose of, 425-429
- Cocacethylene, in meconium specimens, 697-703
- Cocaine  
acid-base abnormalities associated with toxicity of in emergency department patients, 31-39  
chest pain associated with, clinical safety and efficacy of nitroglycerin for the treatment of, 243-256
- Creatine kinase (CK-MM), elevated serum levels of in petrol sniffers using leaded or unleaded fuel, 527-539
- Cutaneous warfarin-like anticoagulant exposure, as a cause of intracerebral hemorrhage, 69-73
- Cyanide, relation of chronic poisoning with to blindness and tropical neuropathy, 549-556

## D

- Datura*, poisoning by the use of leaves of in homemade toothpaste, 329-331
- Datura stramonium*, anticholinergic intoxication with from commercially available thorn apple tea, 589-592
- DEET. *See* *N,N*-Diethyl-*m*-toluamide
- Delayed toxic level, of acetaminophen, after initial four-hour nontoxic level, 431-434
- Detomidine, parenteral exposure to, 465-469
- Dichlorvos, *in vitro* adsorption of with activated charcoal, 157-163
- N,N*-Diethyl-*m*-toluamide (DEET), retrospective analysis of calls to poison control center resulting from exposure to, 1-16
- Diphenhydramine, and hyoscine, fatal anaphylactic shock from (letter to the editor), 593-594
- DMSA. *See* *Meso* 2,3-dimercaptosuccinic acid
- Drug concentrations, of acetaminophen, prediction of in overdose patients using a Bayesian pharmacokinetic model, 17-30
- Drug detection, in a case control study of trauma cases with fatal injuries, 137-145

## E

- Ecballium elaterium* (squirting cucumber), fatal cardiac and renal failure due to (letter to the editor), 737-738
- Emergency department patients  
acid-base abnormalities associated with cocaine toxicity in, 31-39  
intravenous pentazocine/  
methylphenidate abuse in, 541-547
- Enteroenteric circulation, of phenobarbital, interruption of by activated charcoal, 419-424
- Environmental oxidants (book review), 741-742
- Epidemiology,  
of carbon monoxide poisoning, 613-629  
of caustic ingestion in adults, 557-568  
of hydrogen peroxide exposure, 705-714

- Ethanol, mechanisms of interactions of  
with drugs and nutrition, 631-681  
Ethylene glycol interferences in GLC  
determination of serum levels of in  
ketotic patients (letter to the  
editor), 85-87

## F

- Fellowships (announcements), 107, 359,  
485, 607  
Fentanyl, inhalation abuse of a patch of,  
75-78  
Fixatives, stool, mercuric chloride,  
poisoning due to ingestion of,  
577-582  
Folinic acid, use of for formic acid  
intoxication, 199-204  
Food poisoning, malicious, by thallium,  
723-730  
Formic acid intoxication, folinic acid and  
enhanced renal elimination in,  
199-240  
Funding, of poison centers, 503-508  
(editorial comment), 509-511

## G

- Gas liquid chromatography (GLC),  
interferences in determination of  
serum ethylene glycol by in ketotic  
patients (letter to the editor), 85-87  
Gasoline, leaded or unleaded, elevated  
serum creatinine kinase (CK-MM)  
in sniffers using, 527-539  
GLC. *See* Gas liquid chromatography  
Glucagon, comparative hemodynamic  
effects of versus milrinone in  
canine propranolol poisoning,  
277-289  
Glucose-6-phosphate dehydrogenase  
deficiency, hemolytic anemia in a  
patient with following succimer  
administration, 569-575  
Gramonol®, methemoglobinemia  
following ingestion of, 185-189  
Guanabenz, induction of hypothermia in  
an elderly female by, 445-449  
Gunshot wounds, lead poisoning from  
(editorial comment), 387-389  
treatment of by DMSA, 377-385

## H

- Hair, pigmented human, the *in vitro*

- differential binding of  
benzoylecgonine to, 405-410  
Health hazard control, in the chemical  
process industry (book review),  
597  
Heme metabolites, disappearance of  
following chelation therapy with  
DMSA, 267-276  
Hemolytic anemia  
following a presumptive brown  
recluse spider bite, 451-456  
following succimer administration in a  
glucose-6-phosphate dehydrogenase  
deficient patient, 569-575  
Hemorrhage, intracerebral, caused by  
cutaneous exposure to a warfarin-  
like anticoagulant, 69-73  
Hepatocellular damage, following  
intoxication with amphetamine,  
435-444  
Herbicide, monolinuron/paraquat,  
methemoglobinemia following  
ingestion of, 185-189  
Hydrofluoric acid, evaluation of  
intravenous magnesium sulfate for  
the treatment of burns of, 123-136  
Hydrogen peroxide, exposures of  
reported to a regional poison  
control center, 705-714  
Hyoscine, and diphenhydramine, fatal  
anaphylactic shock from (letter to  
the editor), 593-594  
Hyperbaric oxygenation, in the treatment  
of carbon monoxide poisoning,  
613-629  
Hyperglycemia, after severe theophylline  
intoxication, 41-47  
Hypnotics, solpidem, acute poisoning by,  
391-404  
Hypokalemia, after severe theophylline  
intoxication, 41-47  
Hypothermia, induction of by guanabenz  
in an elderly female, 445-449

## I

- Ibuprofen, overdose of complicated by  
renal failure, adult respiratory  
distress syndrome, and metabolic  
acidosis, 315-320  
Immunotherapy, recent advances in  
antibody treatment of toxin  
poisoning, 363-375  
Ingestion  
of acetaminophen in childhood, cost

- and relative risk of alternative referral strategies for, 513-525
- of caustics, epidemiology and prevention of in adults, 557-568
- of methanol with methyl ethyl ketone, osmolar gap with minimal acidosis in, 79-84
- of monolinuron/paraquat herbicide, methemoglobinemia following, 185-189
- of a stool fixative, mercuric chloride poisoning caused by, 577-582

#### Inhalation

- abuse of a fentanyl patch by, 75-78
- of chlorine gas, nebulized sodium bicarbonate in the treatment of, 233-241
- of isobutyl nitrite, fatal methemoglobinemia due to, 179-184
- of leaded or unleaded gasoline, elevated serum creatine kinase (CK-MM) in, 527-539
- of pyrethrin shampoo, fatality associated with, 457-460
- Insecticides, pyrethrin, fatality associated with inhalation of a shampoo of, 457-460
- Intensive care unit, fatal and nonfatal methamphetamine intoxication in, 147-155
- Intravenous drug abuse, of pentazocine/methylphenidate, 541-547
- Isobutyl nitrite, fatal methemoglobinemia due to inhalation of, 179-184

#### K

- Ketorolac
  - (editorial comment), 313
  - in Europe, 311
  - induction of acute renal failure following a single dose of, 305-309
- Ketotic patients, interferences in GLC determination of serum ethylene glycol in (letter to the editor), 85-87

#### L

- Lead poisoning
  - disappearance of heme metabolites in following chelation therapy with DMSA, 267-276

- from gunshot wounds (editorial comment), 387-389
- treatment of with DMSA, 377-385

#### M

- Magnesium sulfate, intravenous, evaluation of for the treatment of hydrofluoric acid burns, 123-136
- Meconium, cocaethylene in specimens of, 697-703
- Medical toxicology subspecialty examination (announcement), 217
- Melaleuca oil, poisoning by, 461-464
- Meperidine, neurotoxicity from after organ transplantation, 325-328
- Mercuric chloride, poisoning with due to ingestion of a stool fixative, 577-582
- Meso 2,3-dimercaptosuccinic acid (DMSA)
  - disappearance of heme metabolites following chelation therapy with, 267-276
  - hemolytic anemia following administration of in a glucose-6-phosphate dehydrogenase deficient patient, 569-575
  - for treatment of lead poisoning from gunshot wounds, 377-385
- Metabolites
  - heme, disappearance of following chelation therapy with DMSA, 267-276
  - of penthoate, in human poisoning, 49-60
- Methamphetamine, fatal and nonfatal intoxication with in the intensive care unit, 147-155
- Methanol, combined ingestion of with methyl ethyl ketone, osmolar gap with minimal acidosis in, 79-84
- Methemoglobinemia
  - associated with nitroethane poisoning from an artificial fingernail remover, 321-324
  - caused by the accidental contamination of drinking water with sodium nitrite, 173-178
  - fatal, due to inhalation of isobutyl nitrite, 179-184
  - following ingestion of a monolinuron/paraquat herbicide, 185-189
  - as an occupational hazard of phenylpropanolamine production,

- 299-303  
Methyl ethyl ketone, combined ingestion of with methanol, osmolar gap with minimal acidosis in, 79-84  
Mexiletine, production of status epilepticus without cardiovascular abnormalities by overdose with, 731-736  
Milrinone, comparative hemodynamic effects of versus glucagon in canine propranolol poisoning, 277-289  
Monolinuron/paraquat herbicide, methemoglobinemia following ingestion of, 185-189  
Mucosal absorption, oral, as a cause of poisoning by the use of *Datura* leaves in homemade toothpaste, 329-331  
Mushrooms, containing amatoxin, poisoning with in suburban New York, 715-721

N

- National Toxicology Program (announcement), 357  
Neurobehavioral toxicity (book review), 475-476  
Neuropathy, tropical, relation of to chronic cyanide poisoning, 549-556  
Neurotoxicity, meperidine, following organ transplantation, 325-328  
Newborns, cholinesterase activity in, 683-696  
Nitric oxide, inhaled, in advanced paraquat intoxication, 205-214  
Nitroethane, poisoning by from an artificial fingernail remover, 321-324  
Nitroglycerin, in the treatment of cocaine associated chest pain, clinical safety and efficacy of, 243-256

O

- Occupational disease, methemoglobinemia as in the production of phenylpropanolamine, 299-303  
Opiates, effects of on blood rheology, 411-417  
Organ transplantation, meperidine neurotoxicity after, 325-328

- Organophosphate, peripheral vascular resistance as a measure of adequate atropinization in treatment of poisoning by, 61-68  
Osmolar gap with minimal acidosis, in combined methanol and methyl ethyl ketone ingestion, 79-84 (reply to letter to the editor), 93-95, 97 versus residual osmolality or excess osmolal gap (letter to the editor), 89-91

P

- Pancreatitis, acute chemical, associated with tricyclic antidepressant overdose, 425-429  
Paraquat, inhaled nitric oxide in advanced intoxication by, 205-214  
Parathion, *in vitro* adsorption of with activated charcoal, 157-163  
Parenteral exposure, to detomidine and butorphanol, 465-469  
Pentazocine/methylphenidate, intravenous abuse of, 541-547  
Penthoate, metabolites of in human poisoning, 49-60  
Peripheral vascular resistance, as a measure of adequate atropinization in organophosphate poisoning, 61-68  
Pharmacology and toxicology, annual review of (book review), 473-474  
Phenobarbital, activated charcoal as interrupter of enteroenteric circulation of, 419-424  
Phenothiazine, relation of treatment with to respiratory distress syndrome in a child, 191-197

P

- Phenylpropanolamine, methemoglobinemia as an occupational hazard in the production of, 299-303  
Plasma catecholamines, activity of after severe theophylline intoxication, 41-47  
Poison control centers calls to regarding exposure to DEET, a retrospective analysis of, 1-16 funding of

- who should pay for, 503-508  
(editorial comment), 509-511
- regional, exposures of hydrogen peroxide reported to, 705-714
- Poisoning management, of childhood acetaminophen ingestion, alternative referral strategies for, 513-525
- Poisons, free radicals, and cellular injury (introduction to symposium proceedings), 609-611
- Pregnant women, cholinesterase activity in, 683-696
- Prenatal exposure, to toxicants (book review), 743-744
- Propranolol, comparative hemodynamic effects of milrinone versus glucagon in canine poisoning with, 277-289
- Pyrethrin, fatality associated with inhalation of a shampoo of, 457-460

## R

- Reactive airways dysfunction syndrome, toxic induction of, 487-501
- Reactive upper-airways dysfunction syndrome, toxic induction of, 487-501
- Rectal administration, acetic acid intoxication by, 333-336
- Referral strategies, alternative, for poisoning management of childhood acetaminophen ingestion, 513-525
- Renal elimination, enhanced, use of for formic acid intoxication, 199-204
- Renal failure
  - acute, following a single dose of ketorolac, 305-309
  - ibuprofen overdose complicated by, 315-320
- Research awards (announcements), 105-106, 109, 219, 347
- Respiratory distress syndrome
  - adult
    - caused by advanced paraquat intoxication, use of inhaled nitric oxide for, 205-214
    - ibuprofen overdose, complicated by, 315-320
    - in a child, relation of to phenothiazine treatment, 191-197
  - Rhinitis, the toxic induction of, 487-501

## S

- Scorpion stings, response to specific *Centruroides sculpturatus* antivenom in 151 cases of, 165-171
- Seizures
  - status epilepticus, produced by mexiletine overdose, 731-736
  - theophylline induced, noninvolvement of adenosine receptors in, 257-265
- Sodium bicarbonate, nebulized, in the treatment of chlorine gas inhalation, 233-241
- Sodium nitrite, methemoglobinemia caused by the accidental contamination of drinking water with, 173-178
- Spider bite, presumptive brown recluse, hemolytic anemia following, 451-456
- Squirting cucumber (*Ecbalium elaterium*), failure due to (letter to the editor), 737-738
- Succimer (DMSA)
  - hemolytic anemia following administration of in a glucose-6-phosphate dehydrogenase deficient patient, 569-575
  - for treatment of lead poisoning from gunshot wounds, 377-385

## T

- Ts and blues combination, intravenous pentazocine/methylphenidate as, 541-547
- Tachyarrhythmia, supraventricular, associated with baclofen overdose, 291-297
- Thallium, poisoning with from maliciously contaminated food, 723-730
- Theophylline
  - hypokalemia, hyperglycemia, and plasma catecholamine activity after severe intoxication with, 41-47
  - seizures induced by, noninvolvement of adenosine receptors in, 257-265
- Thorn apple tea, commercially available, anticholinergic intoxication with, 589-592
- Toothpaste, homemade, poisoning by the use of *Datura* leaves in, 329-331
- Toxicologic emergencies, Goldfrank's

- (book review), 739-740
- Toxicology
  - clinical, principles of (book review), 471-472
  - general and applied (book review), 215-216
  - principles and methods (book review), 745-746
- Toxicology scientific meetings
  - (announcements), 111, 113, 115, 117, 119, 121, 221, 223, 225, 227, 229, 341, 343, 349, 351, 353, 477, 479, 481, 483, 599, 601, 603, 605, 749, 751
- Trauma cases, with fatal injuries, a case control study of drug detection in, 137-145

W

- Warfarin, cutaneous exposure to an anticoagulant similar to as a cause of an intracerebral hemorrhage, 69-73
- Water, for drinking, methemoglobinemia caused by accidental contamination of with sodium nitrite, 173-178

Z

- Zolpidem poisoning, acute, analysis of 344 cases of, 391-404
